Live Painting with **Matthew Grant**

Matthew has his own approach to, and definition of, art. He paints in acrylic and oils, using a number of methods to achieve the realistic aesthetic he's become known for. While focusing on the stylized details in nature in an abstract way, he is still able to maintain a vivid photorealistic look. Believing in taking risks, and that inspiration can be found wherever he looks, Matthew's goal is to capture and bring to life the images he and others are interested in.
